

# CREATING AN ENVIRONMENT THAT PROMOTES LEARNING AT HOME

## PARENT CHECKLIST

An effective home school environment is best established when the following are in order:

### ✓✓ **DESK OR WORKSPACE**

Have an area set-up in your home with a desk (a table with a laptop works as well) that your child can associate with school work.

### ✓✓ **COMPUTER (access to outlet)**

Make sure your child's learning space includes a computer or laptop as well an electrical outlet.

### ✓✓ **SCHOOL BOOKS & SUPPLIES**

Gather all school books and supplies (pens, paper, dictionary, globe, glue etc) and keep them within reach of your child's learning space.

### ✓✓ **DESIGNATED AREAS FOR MATERIALS**

Bins, crates and other types of storage containers will really come in handy for organizing your child's school supplies.

### ✓✓ **TIMER / BELL**

Keep a timer so that your child has a visual reference for how long an activity should take. A bell can also be used to notify a certain activity has ended.

### ✓✓ **POSTED SCHEDULE**

Routines give a sense of safety, especially in times of uncertainty. Post all charts, routines and schedules for your child to refer to for guidance.
